Education

Antalya Bilim University
(Formerly named International Antalya University)

3.22 GPA (Full Scholarship)

Skills

➤ Html/Css
➤ Mysql
➤ Python
➤ Bootstrap

➤ Java
➤ Flutter
➤ Dart
➤ C,C#

➤ Unity
➤ Javascript
➤ Git Version Control
➤ Patience/Positivity

Projects

Clock Challenge (<http://bit.ly/clockchallenge>)

Purpose was the building clock face UI to Lenove Smart Clock with **Flutter**. Sky changes according to time and weather. Application uses built-in animation libraries as well as spritewidget plugin.

Main Plugin (<http://bit.ly/mcserverplugin>)

Minecraft server plugin that manages the server commands, events and activites. Writed with **Java** and relies on Spigot API that modified version of Craftbukkit.

Mine Sweeper (<http://bit.ly/minesweepery>)

Based on classic minesweeper game. Built it this game with a friend for project assignment. It uses **Java** with gui libraries and has 3 difficulty modes.

Movable (<http://bit.ly/movablegame>)

Movable is a puzzle game that swiping makes the cube to move to the relevant location. Utilizes the Unity Engine through **C#**. Still in development.

Activities

Flutter Clock Challenge - Google (<http://bit.ly/clockcertificate>)

A Place to Remember - Global Game Jam (<http://bit.ly/placetoremember>)
